+5.9%

Helps provide immediate improvement in outer eye corner (canthus) lifting (angle) with a single use

Outer eye corner lifting (angle) improved by 5.924% compared to pre-use 2021 - October 26, 2021 | Subjects: 31 adult women aged 30-49

+21.9%

Improves skin density

+19.6%

Improves jawline firmness

+10.1%

Improves skin elasticity and resilience

*Clinical Institution: P&K Skin Research Center / Period: Feb. 19 - Mar. 24, 2025 / Subjects: 20 adult women with an average age of 48 Single use showed improvements in overall facial firmness (forehead), outer eye lifting angle, nasolabial fold lifting angle, and jawline contour angle

360 Perfect 5X Formula

01 : NMN

A next-generation antioxidant.

02 : Hybrid Peptide™

Patented composition for skin volume and elasticity.

03 : SYN-AKE®

DSM's patented ingredient for aging wrinkle treatment.

04 : Liposome Botulinum

Highly concentrated liposomal protein.

05 : Caffeine

Anti-cellulite and anti-aging ingredient.

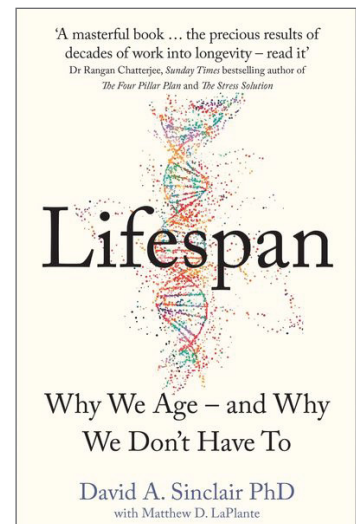

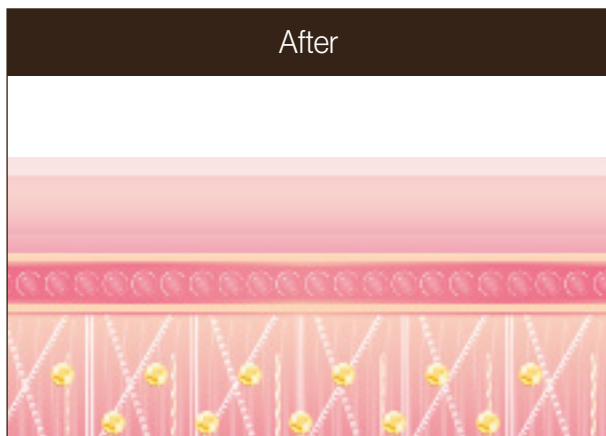

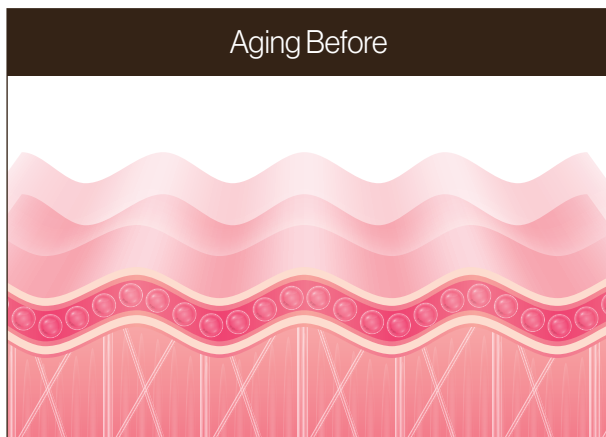

01: NMN

A next-generation antioxidant

#AntiAgingSkincare #AntiOxidantSkincare
#SkinSoothing #LongevityGenes
#LongevityBooster

Derived from Vitamin B3, NMN provides an essential building block for NAD⁺, a compound that naturally declines with age. By activating longevity genes (Sirtuins), it helps promote youthful and healthier skin. (It is also known as a key substance mentioned in "Lifespan: Why We Age—and Why We Don't Have To")

02: Hybrid Peptide™

Patented composition for skin volume and elasticity

#WrinkleReduction #DermalDensity
#PlumpSkin #CollagenBoost
#SkinHydration

Hybrid Peptide™ is a patented composition containing a biotin - conjugated hexapeptide - 2 derivative that promotes adipocyte differentiation, enhances growth hormone secretion in the skin, delivers vitamin B7, and stimulates collagen synthesis in the dermis.

It increases the production of collagen 17, laminin, and integrin proteins at the epidermal-dermal junction, strengthening the skin's natural resilience, supporting skin preadipocyte differentiation, and promoting lipid accumulation.

03:

SYN-AKE®

DSM's patented ingredient for aging wrinkle treatment.

#CollagenSynthesis #AntiWrinkle
#AgeKillingEffect #AgeFreezingEffect
#BotoxEffekt #PatentedCompound

+Botox peptide

+Acetylcholine

Stop wrinkling, keep laughing

SYN-AKE® is a targeted agent designed to address aging wrinkles caused by facial expressions. The low-molecular-weight Botox-like peptide binds to acetylcholine receptors, replacing acetylcholine, effectively blocking muscle contraction signals. This mechanism replicates the effects of Botox by preventing muscle contractions, delivering exceptional wrinkle-suppressing results.

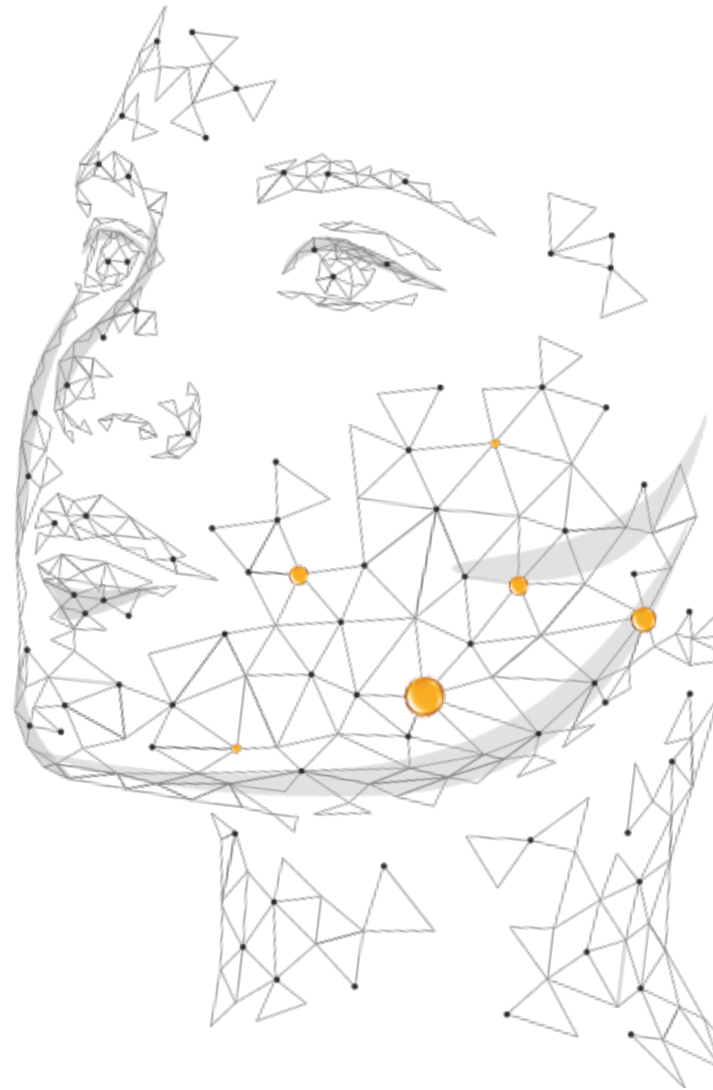

04:

Liposome Botulinum

Highly concentrated liposomal protein.

#AntiWrinkle #UnderEyeWrinkles
#SkinProtein #SkinElasticity
#HighConcentration

It is an innovative ingredient made by purifying the light chain of botulinum toxin and encapsulating it into liposomes. Renowned for its exceptional wrinkle - reducing effects, it is widely used in fields such as ophthalmology, neurology, and cosmetics. This advanced formulation improves skin elasticity and firmness, rejuvenating loose and tired skin with a synergistic effect.

05:

Caffeine

Anti-Cellulite and Photoaging Ingredient

#DarkCircles #EyeBags #ImprovedBloodCirculation #AntiAging #HairGrowth

Caffeine, recognized as a powerful antioxidant, offers remarkable benefits for preventing skin aging, including reducing the appearance of dark circles. We use natural caffeine from TESTA, one of the world's top four caffeine manufacturers in Italy, ensuring 100% purity and delivering versatile benefits with its high-purity formulation.

OCS Applied

(Oligo Care System)

The oligosaccharide component enhances caffeine solubility and ensures stability, even at high concentrations.

Stabilization technology for high-concentration(2%) caffeine, leveraging the amphiphilic properties of cyclic oligosaccharides.

The high-strength 2% caffeine delivers an unparalleled lifting effect with a powerful synergistic action, revitalizing the skin both internally and externally. It helps smooth out fine wrinkles, restoring a refined and even texture to the entire face.

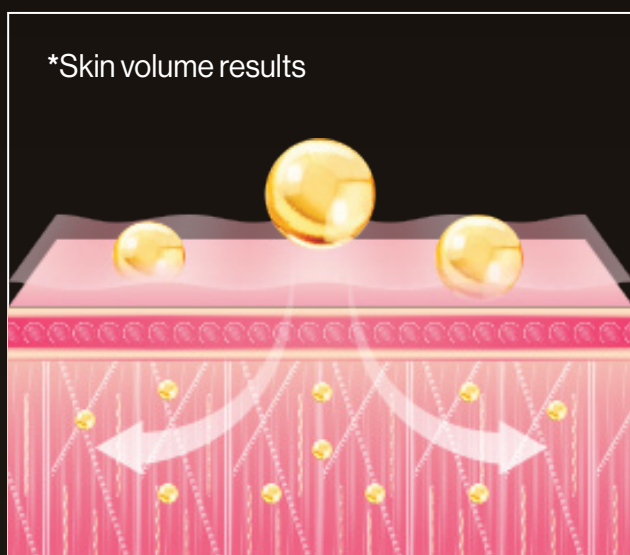

Certified with the 'Excellent' grade by Dermatest

Dermatest, a renowned German dermatological testing institute.

Dermatest is an independent dermatological research institute founded in Germany, specializing in skin safety testing since 1978. It applies scientifically rigorous testing procedures to verify product safety and skin compatibility.

The Original Dermatest® seal of approval is evidence of consumer safety for cosmetics and consumer goods worldwide.

A dual-functional, approved by the KFDA

+ Niacinamide

(Approved for Whitening)

+ Adenosine

(Approved for Wrinkle Improvement),

+ Hyaluronic Acid

(Enhancing hydration and moisture retention)

With these active ingredients, unique components, and a stable formulation, 360 Perfect Ampoule delivers a distinctive and effective solution.

3D Lifting Effect for Restoring Skin Angles

360 Perfect Ampoule restores vitality and refines rough skin texture, revealing a luminous glow. It enhances facial contours and restores definition to the eyes, cheeks, jawline, and mouth, ensuring a youthful look from every angle.

Smooths under-eye hollows and minimizes enlarged pores while firming loose skin with improved elasticity, resulting in a bright and refined complexion.

Your Daily Ritual for Defined Contours

How to Use 360 Perfect Ampoule

After cleansing and toning, pump 2-3 drops of the ampoule onto your fingertips.

1

Gently apply the ampoule evenly across your forehead, cheeks, jawline, and neck, starting from the center of your face and blending outwards.

2

Massage the ampoule into your skin using small circular motions from your cheeks to your temples and forehead. Then, using upward strokes from your chin to just below your ears, enhance your facial contours. Repeat this process 2-3 times for best results.
